

*Using a tried & tested network of global suppliers,
we can source products or outsource manufacture of new products.*

Multilingual Staff

- We have created very strong relationships with our manufacturers through communicating in their native languages.

Production Setup

- We organise production runs, agree timelines, specify materials, processing and finishing with all of our suppliers on our clients behalf.

Quality Assurance

- We test and certify sample production parts from all manufacturers and suppliers to ensure high quality products. We take responsibility for the quality of the delivered products.

Safety Standards

- All of our suppliers comply with safety standards relevant to the specific product design. We also have parts tested and marked to comply with regulatory standards where appropriate.

Packaging / Shipping

- We design and source the packaging to ensure your product is delivered ready for market.

Customs Clearance

- We ensure that all of our products clear customs prior to delivery to your warehouse.
